Reasons for Allowance

The following is an examiner's statement of reasons for allowance: While the prior art does teach using analog data, the prior art does not teach carrying binary data in a stream of electrical, molecular or light signals through a substrate, allowing interactions of molecules in the substrate and receiving the signal after it is transferred through the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
